

# How to run a LEGO® Reads event

Scholastic, DK and Egmont are delighted that you are planning a LEGO® Reads event in your bookshop or school. In this pack you'll find everything you need to plan your event using the brilliant array of LEGO® books available.

## Your pack contains:

- Eight activity sheets
- A LEGO® Reads poster
- Sticker sheets

## Here are some suggestions for running your LEGO® Reads event

- Decorate your event area with the poster and print outs of the book jackets
- Start your event by reading from one of the LEGO® books. Get the children involved by asking them to guess who might happen next or to act out different moments in the story!
- Have fun completing the activity sheets, maybe have a prize for the most creative, the neatest colouring or the best drawing
- Let the kids get creative with LEGO! They could create their own LEGO® book jacket, build a character from the book you read together or create a scene from the book
- Hand out stickers and any left over activity sheets at the end of the event for the children to take home with them

We hope you and the children enjoy a fun-filled LEGO® Reads event. Please share any pictures from your event on **#LEGOreads**. We'd love to see what you get up to!
