

Make your own...

...Bad Nana GLASSES

Simply cut these glasses out (careful with the middle bits) then gently fold the arms back and bob's your uncle, you have your very own pair of Bad Nana glasses. Use them for keeping an eye out for any nonsense and opportunities for fun!

Don't forget to cut this bit out...

...Or this bit!

Maybe you could customise your glasses using some glitter, coloured card, shapes or whatever you fancy!
