

# Make a Moon and Stars Mobile

A mobile will bring a pop of magic and sparkle to a room, and if you hang it somewhere with a light breeze, it will flutter gently as well.

## You will need:

- A4 sheet of white card
- A sheet of tracing paper
- A pen or pencil
- Gold and silver paint
- String
- Holepunch
- Scissors

## Instructions:

1. Carefully trace the moon and the star on the next page on to your tracing paper and then cut them out.
2. Using the moon stencil you've created, draw an outline of a moon on your piece of card and cut it out.
3. Then using the star stencil, draw six stars on the card and cut those out separately so you have six stars.

4. Paint one side of the moon with the gold paint, and one side of all the stars with the silver paint.
5. When dry, turn all the stars and moon over and paint the other sides too.
6. Take your string and cut it into seven pieces, all different lengths.
7. When your moon and stars are completely dry, use the hole punch to punch one hole at the top of each star. Punch six holes along the outside bottom edge of the moon.

## SAFETY FIRST

Remember to be careful with scissors and ask an adult for help as they can be very sharp.
