# RED LANTERN

YOU WILL NEED

- 1 sheet of red origami paper
- 1 sheet of green origami paper
- 1 sheet of pink origami paper
- pen
- scissors
- pin
- gold tassel
- gold thread or string
- needle

INSTRUCTIONS

1. Trace the flower shape that is on the opposite page onto your paper. Carefully cut it out.

2. Use a pin to poke a hole in the middle of each petal's point and in the centre of the flower.

3. Thread your tassel's string into the hole in the centre. Tie a knot to secure it.

4. Use a needle to thread a piece of gold string (about 60cm long) through each of the petals.

5. Using the thread, gently curve the paper inwards to form a round lantern.

6. Pull the string and points to bring the lantern together and tie a knot on top to secure it. Your lantern is ready to be hung up!

SAFETY FIRST
Ask an adult to help when using pins and scissors.
